| [geoffreylokol22@gmail.com](mailto:geoffreylokol22@gmail.com)

| Nairobi, Kenya

### SUMMARY

---

Tech-driven professional with a solid foundation in data analysis, process automation, and business intelligence. Proficient in SQL, Python, Power BI, and statistical modeling, and deeply passionate about workflow automation, market research, and cloud computing. Motivated by the evolving potential of enterprise resource planning (ERP) systems and digital transformation. Keen to expand expertise in SAP S/4HANA Cloud, business process optimization, and functional consulting, while honing the technical and soft skills required for ERP implementation and client engagement. Driven to collaborate with industry experts, earn globally recognized SAP certifications, and contribute to business transformation through innovative technologies and data-driven insights.

### EDUCATION

---

**Kenyatta University** - Nairobi, Kenya  
BSc. Statistics and Programming

Sep 2018 - Dec 2022

### WORK EXPERIENCE

---

**Stanbic Bank Kenya** - Nairobi, Kenya  
*Graduate Learner*

Apr 2023 - Mar 2025

- Conducted market research and data analysis to support strategic decision-making.
- Developed and documented workflow processes to improve operational efficiency.
- Automated data reconciliation and reporting to streamline processes.
- Provided training and user support to enhance adoption of digital solutions.

**International Livestock Research Institute** - Nairobi, Kenya  
*Data Analyst Intern*

Aug 2022 - Dec 2022

- Conducted statistical analysis on food security trends across five counties in Northern Kenya.
- Performed spatial analysis of ecological zones to identify patterns supporting strategic agricultural initiatives.
- Prepared research reports and presented findings for policy formulation.

### PROJECTS

---

**Stanbic Bank Kenya** - Nairobi, Kenya  
*Payments & Collection Automation*

Apr 2023 - Feb 2025

- Designed streamlined workflow processes for efficient implementation and client alignment.
- Analyzed manual reconciliation processes, identifying inefficiencies in billing and collections.
- Developed automated workflows integrating Oracle and eCitizen APIs for seamless fund reconciliation.

*Trade Finance Dashboard*

- Built a Power BI dashboard to track trade inflows and outflows, offering key insights for investment and financing.
- Used predictive modeling to identify financing gaps and regional trade opportunities.

*Personalized Customer Messaging*

- Conducted A/B testing on personalized customer messaging to optimize engagement strategies.
- Designed and analyzed test results to identify the most effective messaging formats and timing, boosting customer reactivation.

### COMPETENCIES

---

**Technical Skills:** Data Querying, Statistical Analysis, Machine Learning, Data Visualization, Cloud Computing.

**Soft Skills:** Problem-Solving, Effective Communication, Adaptability, Market Research, Process Improvement.

**Tools:** SQL, Python, R, Power BI, ERP.
